Manifold Fittings

OTECO manufactures ten different styles of manifold fittings in 2 inch, 3 inch, 4 inch, and 5 inch with working pressures ranging from 3,000 psi to 5,000 psi with test pressures up to 10,000 psi. Each fitting can be supplied with either line pipe threads, or Schedule XX or 160 buttweld end connections. Special connections are available upon request. All fittings are hydrostatically tested prior to shipment and full certification can be supplied upon request.

Available OTECO Manifold Fittings include:

- 45° Long Sweep Ells
- 90° Long Sweep Ells
- 90° Long Sweep Ells with 2 in. outlet
- 160° Standpipe Gooseneck
- 160° Standpipe Gooseneck with top outlet
- 180° Standpipe Gooseneck
- Long Sweep Full Flow Cross
- Long Sweep Full Flow Tee
- Long Sweep Tee
- Long Sweep Y

Standpipe and Manifold Assembly Fabrication Services

OTECO manufactures to customer specifications complete 5,000 psi standpipe manifold assemblies. Every standpipe manifold is sandblasted, epoxy-coated and thoroughly tested prior to shipment.

Wireline Equipment

OTECO manufactures wireline turnback assemblies and components. In addition, we have replacement rollers for BJ model code Roliguide. OTECO also offers complete wireline guide units and wireline guide hanging assemblies for most beam or angle type derricks.

Mud Guards

OTECO mud guards come in two models: the MG-600 and MG-800. Our mud guards have proven cost effective in saving the expense of lost drilling fluids, reduced labor for rig wash down, as well as reducing the potential for accidents due to slippery rig floors. The MG-600 is 6 ft. x 10-³/₄ in. and can handle drill pipe sizes from 2-³/₈ in. to 5-¹/₂ in. The MG-800 is 6 ft. x 16 in., it's larger cavity is designed for drill pipe sizes from 2-³/₈ in. to 6-⁵/₈ in. and can handle larger volumes of line fluids. Both models can be supplied with neoprene or nitrile end and side seals.

Oil Guards

Similar in design to our mud guards, the OTECO Oil Guard MG-500 is 4 ft. x 6 in. and is designed to accommodate tubing sizes ranging from 2-³/₈ in. to 3-¹/₂ in.
