

SCOTGRIP®
step into a safer environment

**Manufacturers of heavy duty,
anti-slip safety products**

Ref: SCGR SignAlert
Issue No: 1
Issue Date: Mar 2010
Page No: 1 of 2

Providing safety solutions to industry

The Scotgrip® 'SignAlert' safety marking system is proven to be an effective method of warning personnel of any hazards/hazardous areas which they may be exposed to and also as a reminder to think of safety at all times. The 'SignAlert' system can be added to virtually all Scotgrip® anti-slip safety products – the most popular being stair nosings/treads, Kicker Treads® and tiles.

We feel that it would defeat the purpose to have 'SignAlert' on every step as there would be too many messages, therefore we would recommend 'SignAlert' to be placed at the first and last steps, possibly the middle step depending on the stairway size. 'SignAlert' can be of any description and can incorporate the clients company logo to create a more positive impact with regards to the safety messages given.

All Scotgrip® products with the 'SignAlert' safety marking system incorporate the unique Scotgrip® high-traction anti-slip safety surface which gives a sound foot-holding in the most extreme conditions. These tough and durable products are manufactured under BS EN ISO 9001:2008

quality controlled conditions comprising of a reinforced composite base and a graded aggregate surface. As a Scotgrip® quality standard, these products are fire rated, spark and friction tested.

Call us with your requirements. Eliminate 'Slips and Trips' and enhance safety on your location.

- Eliminates 'Slips and Trips'
- Promote safety messages/information
- Cost effective
- High traction anti-slip safety products
- Tough and durable
- Standard sizes and custom made
- Fully guaranteed
- Fire rated, spark and friction tested
- Non corrosive
- Easy to fit over existing surfaces
- Reflects positively on personnel performance

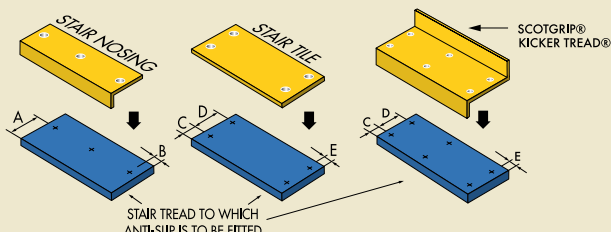

FITTING DATA

Fitting onto:	Method
Open grating/grille	Type 'S' fixings (saddle assemblies)
Chequered plate	Self tap screws or nut, bolt and washer
Concrete	HPS impact fixings
Wood	screws or adhesive

FIXING HOLE POSITION

If fixing holes are to be pre-drilled the following information is required:

We recommend our own fastening systems for securing Scotgrip® products.

STANDARD SIZES

BREADTH (DEPTH)

LENGTH

mm		200	260
	inches	8	10
700	28	✓	✓
900	36	✓	✓
1200	48	✓	✓

Custom sizes also available. Standard lip size on stair nosings is 30mm (1" approx).

We would recommend the following as a guideline for each stairway:

- 1 x tread for top step (USE TRAILING HAND TECHNIQUE)
- 1 x tread for bottom step (USE HANDRAIL)

Scotgrip® Kicker Tread® with 'SignAlert' message 'Use Handrail'

For installation details, please go to the Technical section of our website: www.scotgrip.com

HIGH-TRACTION ANTI-SLIP

Scotgrip® 'SignAlert' safety products will provide a sound footholding even in the most extreme conditions and will eliminate 'Slips and Trips' in your working environment. Please note: the product and message size will determine the surface grade available.

Surface grades: High Profile – 6mm aggregate (1/4" approx.)
 Low Profile – 3mm aggregate (1/8" approx.)
 Fine Profile – 1mm aggregate (1/16" approx.)

HIGHLY VISIBLE

Colour coded in a wide range of colour schemes to suit individual locations. Colour codes are: blue/white, red/white, safety yellow, Fluorescent and photoluminescent finishes. Other colours available – please ask.

HEAVY DUTY

Scotgrip® 'SignAlert' safety products are extremely durable and remain highly effective for many years.

STANDARD SIZES OR TO CUSTOMER SPECIFICATION

Scotgrip® 'SignAlert' safety products are manufactured in standard sizes (see table opposite). We regularly manufacture custom sizes to suit individual locations.

SAFETY MESSAGES/INFORMATION

'SignAlert' can be of any description to promote safety messages/information and can incorporate the client's company logo to create a more positive impact with regards to the safety messages given.

EASE OF INSTALLATION

Scotgrip® 'SignAlert' safety products are designed for quick and secure fitting, either by mechanical fixings or bonding to existing surfaces. These products are pre-drilled where required for quick installation. Scotgrip® products are non-load bearing and must have a suitable underlying structure to be secured to.

QUALITY – IT'S WHAT DRIVES US

All Scotgrip® products are manufactured under BS EN ISO 9001:2008 quality controlled conditions using highly compatible raw materials at our premises in Banchory, UK.
