

**SCOTGRIP®**  
step into a safer environment

**Manufacturers of heavy duty,  
anti-slip safety products**

Ref: SCGR Drillmate  
Issue No: 1  
Issue Date: Mar 2010  
Page No: 1 of 2

## Providing safety solutions to industry

**Scotgrip® Drillmate® Tiles incorporate the unique Scotgrip® high-traction anti-slip safety surface which gives a sound foot-holding in the most extreme conditions and are proven to withstand the heavy rigours regularly found in a drilling environment. These tough and durable products are manufactured under BS EN ISO 9001:2008 quality controlled conditions comprising of a reinforced composite base and a graded aggregate surface. As a Scotgrip® quality standard, these products are fire rated, spark and friction tested.**

Drill Floors are quite acceptable when dry but can become extremely dangerous when wet, soiled or painted. By installing Scotgrip® Drillmate® Tiles not only is this slip hazard eliminated but the lifespan of the underlying structure is greatly increased.

These heavy duty products are secured by mechanical fixings or by welding. This unique safety product can be manufactured with built in protruding steel plates around the perimeter of the tile. These plates are positioned in such a way that if more than one tile is fitted they can be butted up together by means of interlocking the protruding steel plates.

**Call us with your requirements. Eliminate 'Slips and Trips' on your drill floor.**

- Eliminates 'Slips and Trips'
- Cost effective
- High traction anti-slip safety products
- Tough and durable
- Standard sizes and custom made
- Fully guaranteed
- Fire rated, spark and friction tested
- Non corrosive
- Easy to fit over existing drill floors
- Reflects positively on personnel performance

# Step into a safer environment with Scotgrip®

## PRODUCTS

Scotgrip® Drillmate® Drill Floor Tile

## Code

SDM

Wood	screws

## WELD PLATE OPTION

Weld plates are staggered to achieve close joint between tiles.

## SDM

Weld plates are staggered to achieve close joint between tiles.

For installation details, please go to the Technical section of our website: [www.scotgrip.com](http://www.scotgrip.com)

## HIGH-TRACTION ANTI-SLIP

Scotgrip® Drillmate® Tiles will provide a sound foot-holding even in the most extreme conditions and will eliminate 'Slips and Trips' in your working environment.

**Surface grades:** High Profile – 6mm aggregate (1/4" approx.)

## HIGHLY VISIBLE

Colour coded in a wide range of colour schemes to suit individual locations.

Colour codes are: safety yellow, black/safety yellow, black, green, grey, blue, red, white. fluorescent and photoluminescent finishes. Other colours available – please ask.

## HEAVY DUTY

Scotgrip® Drillmate® Tiles are extremely durable and remain highly effective for many years.

## STANDARD SIZES OR TO CUSTOMER SPECIFICATION

Scotgrip® Drillmate® Tiles can be supplied in the following sizes and adjusted to suit on site:

1.0m x 1.0m (40" x 40")  
2.5m x 1.0m (98" x 40")

For custom manufacture please send a sketch to us with all dimensions and cut-out positions required of your drill floor arrangement.

## EASE OF INSTALLATION

Scotgrip® Drillmate® Tiles can be secured to chequered plate, flat steel, open grating/grille or wood by mechanical fixings. Another option is to add protruding steel plates during manufacture. These can be quickly and securely fitted by welding the protruding steel plates onto the steel deck. Scotgrip® products are non-load bearing and must have a suitable underlying structure to be secured to.

## QUALITY – IT'S WHAT DRIVES US

All Scotgrip® products are manufactured under BS EN ISO 9001:2008 quality controlled conditions using highly compatible raw materials at our premises in Banchory, UK.
