

SCOTGRIP®
step into a safer environment

**Manufacturers of heavy duty,
anti-slip safety products**

Ref: SCGR FlexTile
Issue No: 1
Issue Date: Mar 2010
Page No: 1 of 2

Providing safety solutions to industry

Scotgrip® FlexTile rolls incorporate the unique Scotgrip® high-traction anti-slip safety surface which gives a sound foot-holding in the most extreme conditions. These tough and durable products are manufactured under BS EN ISO 9001:2008 quality controlled conditions comprising of a reinforced composite base and a graded aggregate surface. As a Scotgrip® quality standard, these products are fire rated, spark and friction tested.

Walkways/decks/flooring can be made from various materials including the following: flat steel, aluminium, concrete or wood. Most of these materials are quite acceptable when dry but can become extremely dangerous when wet, soiled or painted.

By installing Scotgrip® FlexTiles not only is this slip hazard eliminated but the lifespan of the underlying material is greatly increased. These heavy duty products are secured either by mechanical fixings or bonded to existing surfaces.

Call us with your requirements. Eliminate 'Slips and Trips' on your walkways/decks.

- **Eliminates 'Slips and Trips'**
- **Cost effective**
- **High traction anti-slip safety products**
- **Tough and durable**
- **Standard sizes and custom made**
- **Fully guaranteed**
