

SCOTGRIP®
step into a safer environment

**Manufacturers of heavy duty,
anti-slip safety products**

Ref: SCGR GW
Issue No: 1
Issue Date: Mar 2010
Page No: 1 of 2

Providing safety solutions to industry

Scotgrip® Gangway treads incorporate the unique Scotgrip® high-traction anti-slip safety surface which gives a sound foot-holding in the most extreme conditions. These tough and durable products are manufactured under BS EN ISO 9001:2008 quality controlled conditions comprising of a reinforced composite base and a graded aggregate surface. As a Scotgrip® quality standard, these products are fire rated, spark and friction tested.

Marine gangways are renowned for being extremely dangerous, especially when the angle of the gangway is steep and the surface is wet or oily or both. Some gangways have metal or wooden spars across the surface which can be a trip hazard in itself.

By installing Scotgrip® Gangway treads not only is this slip hazard eliminated but the lifespan of the underlying material is greatly increased. Scotgrip® Gangway treads have been designed in 3 different styles (stepped, bar and elliptical) to suit your individual location.

These heavy duty products are easily fitted onto open grating/grille, chequered plate or wood.

Call us with your requirements. Eliminate 'Slips and Trips' on your gangways.

- Eliminates 'Slips and Trips'
- Cost effective
- High traction anti-slip safety products
- Tough and durable
- Standard sizes and custom made
- Fully guaranteed
- Fire rated, spark and friction tested
- Non corrosive
- Easy to fit over existing gangways
- Reflects positively on personnel performance

HEAVY DUTY

Scotgrip® Gangway treads are extremely durable and remain highly effective for many years.

STANDARD SIZES OR TO CUSTOMER SPECIFICATION

Scotgrip® Gangway treads are manufactured in a wide range of standard sizes. We regularly manufacture custom sizes to suit individual locations.

EASE OF INSTALLATION

Scotgrip® Gangway treads are designed for quick and secure fitting, either by mechanical fixings or bonding to existing surfaces. These products are pre-drilled where required for quick installation. Scotgrip® products are non-load bearing and must have a suitable underlying structure to be secured to.

QUALITY – IT'S WHAT DRIVES US

All Scotgrip® products are manufactured under BS EN ISO 9001:2008 quality controlled conditions using highly compatible raw materials at our premises in Banchory, UK.
