Manufacturers of heavy duty,  
anti-slip safety products

## Scotgrip Drillmate II

Scotgrip Drillmate II is a heavy duty high traction anti-slip urethane rubber mat for use on drill floor rotary areas. A highly durable and safe working surface designed for use in hazardous environments.

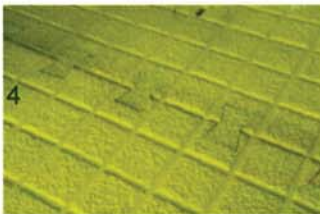

The product's high profile surface gives high traction anti-slip and easy drainage of drilling fluids.

We can also supply the product with more prominent drainage channels if required. (see picture 4).

A tough and durable high traction and flexible anti-slip product with a hardness of Shore A 90 rating, a tensile strength of 19mpa & a high tear strength of 61 kn/m.

25mm (1") thick for around the rotary areas to 40mm (1 1/2") thick for pipe set back areas. Weight is approximately 22kg/ sq mtr (48lbs/sq mtr).

The high profile surface gives the product good traction in the drilling environment. (No need for metal studs on the surface of this product). Salt water, water, oil, kerosene, drilling fluid and oil based mud tests have been carried out over many hours on the Drillmate II with it maintaining high traction anti slip qualities with no wear or absorption of the chemicals.

Drillmate II mats can be connected with 'Dovetail' design or straight edges.  
Easy to fit.  
Can be made to any shape or size.
